

the shorty bed by peter sands

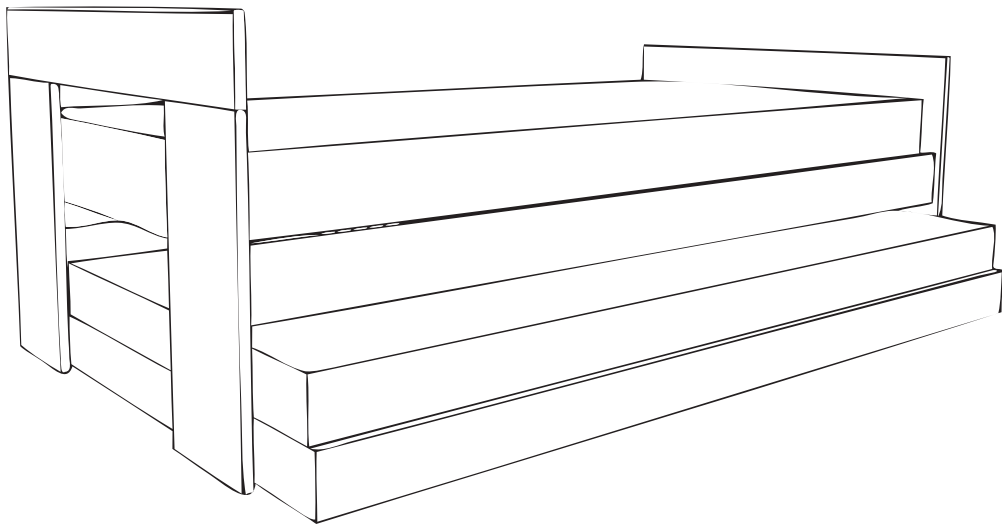

The Shorty bed series is designed and made locally by Peter Sands. Peter is strongly influenced by Danish design principles and this can be seen in the sparse clean lines of his furniture. They are based on a standard single bed size and are ideally suited to children's rooms, spare rooms and holiday houses.

The frame is all solid timber and made from specially selected Tasmanian white mesmate. It is also available in American oak and blackwood. Prices differ for each timber.

The beds come flat packed and are easily assembled using high quality fittings.

Peter Sands has also produced a handy trundle mattress frame which fits neatly under these beds or others.

Both bed and trundle can be supplied with a custom made and locally made mattress. They are double sided with an 80mm high density foam core, 30mm of hyper soft foam and quilted foam and Dacron layer on each side for the bed mattress and 100mm low density foam plus quilted foam and Dacron layer for the trundle. The mattress comes with a 10 yr guarantee.

Bed size	Frame	Mattress	Trundle frame	Trundle Mattress
Shorty Single 1000W 1945L 700H	\$1180	\$498 910W 1900L 200H	\$650	\$420 910W 1800L 135H
